

AIR-MATE

Attic Roof Vents

ICA

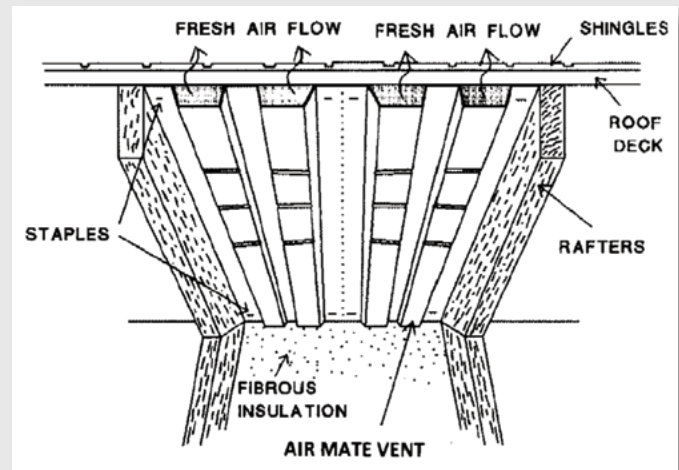

AIR-MATE Attic Roof Vents are made for the purpose of creating an air space between insulation and the underside of a roof deck. This space allows continuous unobstructed air to flow from the soffit vent into an attic or to ridge vents. Moisture is removed in the process. Moisture can cause structural damage and reduce the life of a roof. AIR-MATE Attic Roof Vents also aid in decreasing attic heat as well as humidity and therefore reduce the need for cooling a house during the summer.

► Specifications

- 22" x 48"
- Fits 16" or 24" on center rafters
- Perforated for easy separation
- Wide stapling flanges
- Flexible and lightweight
- Designed for extra strength
- Allows moisture to escape
- Helps prevent ice dam formation
- Made from recycled plastic material

► Installation

- Place AIR-MATE Attic Roof Vents on the underside of the roof between the framing members.
- Slide down into the soffit area, so the air can flow freely from the soffit vent to the desired location.
- Staple every 8 to 10 inches along the flanges with coated roof staples.
- When ridge vents are being used, slightly overlap the lengths together so that a continuous flow of air is achieved between the soffit and the ridge.

Limited Warranty

The warranty terms contained herein shall commence on the date of purchase. All written warranties contained on the face of packages or informational brochures relating to the purchased item shall be in effect for a reasonable period of time not to exceed 90 days from the date of purchase. Insulation Corporation of America warrants this product against defects in material and workmanship by Insulation Corporation of America. During the warranty period the product will be replaced without charge or the purchase price will be refunded at Insulation Corporation of America's option. This warranty only covers defects in material or workmanship in the normal use and does not cover damages or losses resulting from accident or abuse, lack of reasonable care or other unreasonable uses. Insulation Corporation of America shall have no responsibility for the use or care of the product or for any personal injury, property damage or any special incidental contingent or consequential damages or losses of any kind resulting from defects in the product or the failure of the product to perform. The exclusive remedy for breach of the limited warranty contained herein is the replacement of the defective product or the return of the purchase price at Insulation Corporation of America's option. In no case shall Insulation Corporation of America's liability under any other remedy prescribed by law exceed the purchase price. **IMPLIED WARRANTIES** (if any), including but not limited to implied warranties of fitness for a particular purpose and merchantability, are limited in duration to a period ending 90 days from the date of original purchase. **NOTE:** No other warranty, written or verbal is authorized by Insulation Corporation of America. Some states do not allow the exclusion or limitations on how long an implied warranty lasts, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Notice of a consumer claim under this warranty should be directed to Insulation Corporation of America, Consumer Claims Department, 2571 Mitchell Avenue, Allentown, Pennsylvania 18103. Insulation Corporation of America assumes no responsibility and shall have no liability, consequential or otherwise, of any kind arising from the acts, omissions, information or test results and/or defects in material or workmanship, by others who have supplied material or information with respect to this product. Insulation Corporation of America will supply test result information upon written request.

Caution: Extruded polystyrene is combustible. Do not expose to flame or ignition sources during shipping, storage, installation or use.
